Brainloop Secure Dataroom

(Version 8.0)

27.09. – 10.10.2010

n.runs AG has performed a security audit of the Brainloop “Secure Dataroom” application in version 8.0 in Berlin in October 2010.

The analysis performed was based against the OWASP top 10 vulnerabilities and n.runs best practice.

The result of the audit was that none of these vulnerabilities were found in the audited application.

A handwritten signature in black ink that reads "Donald Lee". The signature is written over a horizontal line.

Donald Lee (CEO)
