

Security-Certificate

ERNW GmbH, Heidelberg certifies

Brainloop AG
Franziskanerstr. 14
81669 Munich
Germany

Compliance to the following security requirements based on the tested software product „Brainloop Secure Dataroom Version 7.00.042“:

- Secure Authentication
- Secure Error Handling
- Principles of Secure Programming
- Secure Design and Architecture
- Secure Access Controls
- Sensitive Data Handling
- Input Validation

Result:

In December 2008 a security audit of the Brainloop Secure Dataroom was performed by a team of worldwide well known security experts of ERNW GmbH, Germany. The audit consisted of blackbox tests and an exemplary code review of the application source code.

During the audit no security vulnerabilities in the tested version were found. Design and Architecture of the application are well implemented and engineered with security in mind.

No violations against Best Practices according to BS 7799/ISO 17799/ISO 27001 were identified.
