

BRAINLOOP APPOINTS NEW CEO

Peter Weger to strengthen management team with immediate effect

Munich, Germany. October 21, 2008 - Brainloop, the leading provider of infrastructure and solutions for managing confidential documents, today announced that it has appointed Peter Weger as its Chief Executive Officer.

With the appointment of Peter Weger, Brainloop has a seasoned sales and management professional at the helm whose principal mission will be to build up and expand Brainloop's global sales. Peter Weger has significant senior management experience at leading software companies including Portal Software, Borland, Network Associates and others. He joins Brainloop from Software AG, where he was a member of the executive team and headed up sales activities in southern Germany.

"Brainloop is an outstanding company with an outstanding solution – the Brainloop Secure Dataroom," commented Peter Weger, CEO of Brainloop. "Prestigious customers like ThyssenKrupp, Deutsche Telekom, Bayerische Landesbank and many other leading companies use the dataroom to handle their highly confidential project and board meeting processes. The potential of this innovative application is impressive, and I'm looking forward to the challenge and opportunity to take the company to the next level of growth."

"Brainloop's technology for the protection of confidential documents has revolutionized the way large enterprises think about risk management and compliance requirements," said Oliver Gajek, co-founder of Brainloop. "Peter is a seasoned executive and the right person to drive our global expansion."

"I'm delighted to welcome a manager of Peter Weger's caliber on board," added Hans Strack-Zimmermann, chairman of the supervisory board at Brainloop. "Alongside his excellent management qualities, Peter also brings a wealth of sales experience to his new role that will prove invaluable in accelerating Brainloop's worldwide expansion."

ABOUT BRAINLOOP

Brainloop, with offices in Munich and Boston, is the leading supplier of software solutions for high-security management of confidential documents. Brainloop Secure Dataroom is a virtual document safe that enables safe filing, editing and distribution of highly confidential documents within a single company, and beyond. All contents are powerfully protected from unauthorized internal or external attacks, and all actions within the dataroom are documented by an auditing system. Examples for use include contract negotiations, collecting data and writing up quarterly reports, and any other communication that contains confidential information.

Brainloop Secure Dataroom is used internationally by hundreds of renowned companies including BMW, Deutsche Telekom, Eurocopter, Galileo Industries, Premiere and ThyssenKrupp. Leading law firms and investment banks use this solution for the complete life cycle of M&A transactions. Strategic partners of Brainloop are HP, IZB, Microsoft and T-Systems Business Services.
