

## BRAINLOOP APPOINTS ULI MITTERMAIER TO THE EXECUTIVE TEAM

**Boston, May 3, 2010** - The board of directors of Brainloop, the leading provider of software solutions for the high-security management of confidential documents, announced today that it has appointed Uli Mittermaier to the company's management effective from April 1, 2010. Mittermaier joins Peter Weger, CEO, and Markus Seyfried, CTO, on the executive team.

Uli Mittermaier co-founded Brainloop AG in 2000. In 2007 he was appointed president of Brainloop Inc., where he built up and expanded the company's US operations. "I'm happy to welcome Uli Mittermaier to the executive team," comments Peter Weger, CEO of Brainloop AG. "His appointment underlines the strategic importance we place on our American business and demonstrates our plans for further growth in this key market."

To drive US expansion, Brainloop has set up a local sales and service team to ensure optimal support for American customers. The software-as-a-service application Brainloop Secure Dataroom is also hosted for US customers in a US-based data center.

After completing his business administration degree at the Ludwig Maximilian University in Munich, Germany, Mittermaier worked for Netscape Communications in several positions, of which the last was in strategic sales for the Europe, Middle East and Africa region. He then co-founded Brainloop and has since made a decisive contribution to the company's growth.

### ABOUT BRAINLOOP

Brainloop, with offices in Boston and Munich, is the leading supplier of software solutions for high-security management of confidential documents. Brainloop Secure Dataroom is a virtual document safe that enables safe filing, editing and distribution of highly confidential documents within a single company, and beyond. All contents are powerfully protected from unauthorized internal or external attacks, and all actions within the data room are documented by a tamper-proof audit trail. Frequent uses include contract negotiations, collecting data and writing up quarterly reports, and any other communication that contains confidential information.

Brainloop Secure Dataroom is used internationally by hundreds of renowned companies including BMW, Deutsche Telekom, Eurocopter, Galileo Industries, Sky (formerly Premiere) and ThyssenKrupp. Leading law firms and investment banks use this solution for the complete life cycle of M&A transactions. Strategic partners of Brainloop are HP, F-I-TS, Microsoft and T-Systems Business Services. <http://www.brainloop.com>
