

UNION INVESTMENT REAL ESTATE SELECTS BRAINLOOP'S VIRTUAL DATAROOM

Boston, May 6, 2009 - Union Investment Real Estate AG, one of Europe's leading property investment management firms, is now using Brainloop Secure Dataroom as its strategic platform for the secure and traceable transfer of documents to and from independent specialists. Union Investment Real Estate selected Brainloop's web-based solution because it fulfills all of the company's stringent security standards and special requirements governing the way confidential enterprise information is shared. A key factor in the company's decision is that the Brainloop solution does not require the installation of any client software.

Union Investment Real Estate manages multiple confidential communication processes via the Brainloop data room. These include sharing very large data volumes (such as AutoCAD plans, images and exposés) with third-party experts during the acquisition of sought-after properties around the world.

"Whenever we evaluate and purchase properties, it's essential that we can rely on fast and efficient information sharing with many different specialists in multiple countries," said Friedlind Krause, Financial Controlling, Union Investment Real Estate. "We selected the Brainloop data room because it offers the richest functionality with reasonable conditions. Since we've been using it, our transaction processes are far more efficient, traceable, and secure. Dispatching documents by postal mail was much too time-consuming and thankfully, is now a thing of the past."

Union Investment Real Estate's portfolios include around 200 prime properties in outstanding locations in major cities around the world. "We're very pleased to welcome Union Investment Real Estate as a new customer," commented Peter Weger, CEO of Brainloop. "This win is a further illustration of the growing acceptance - across all industries - of Software-as-a-Service solutions that combine the highest levels of security with fast information flow and traceable processes."

ABOUT UNION INVESTMENT REAL ESTATE AG

Union Investment Real Estate AG is one of Europe's leading property investment management companies. Established in 1965 and part of the Union Investment Group, the company currently manages five open-ended real estate funds for private and institutional investors, with assets under management of around EUR 14.5 billion. About Brainloop AG

Brainloop AG, with offices in Munich and Boston, is the leading supplier of software solutions for high-security management of confidential documents. Brainloop Secure Dataroom is a virtual document safe that enables safe filing, editing and distribution of highly confidential documents within a single company, and beyond. All contents are powerfully protected from unauthorized internal or external attacks, and all actions within the data room are documented by an auditing system. Examples for use include contract negotiations, collecting data and writing up quarterly reports, and any other communication that contains confidential information.

Brainloop Secure Dataroom is used internationally by hundreds of renowned companies including BMW, Deutsche Telekom, Eurocopter, Galileo Industries, Premiere and ThyssenKrupp. Leading law firms and investment banks use this solution for the complete life cycle of M&A transactions. Strategic partners of Brainloop are HP, IZB, Microsoft and T-Systems Business Services. <http://www.brainloop.com>
