

## Press Release

### Leading Business Schools Promote European Entrepreneurship

#### Brainloop AG Selected for European Entrepreneurship Accelerator

Munich, 18 October 2006 – Brainloop AG, the leading provider of infrastructure and solutions for managing confidential documents, has been selected as one of six participants out of 250 companies to be part of the European Entrepreneurship Accelerator (EEA).

This is the pan-European encounter between the best MBA students and the 'hottest' companies in Europe, as well as a joint effort of professors from INSEAD and IESE.

The European Entrepreneurship Accelerator is an initiative from INSEAD and IESE professors to create a productive cooperation between the students of these famous business schools and European entrepreneurs involved in high growth environments. In December 2006, the results of the cooperation will be presented at a conference in Barcelona.

According to the selection committee the Brainloop product, the growth potential, and the commitment of CTO Markus Seyfried and CEO Oliver Gajek are the bases of their decision. The selection committee was headed by Heinrich von Liechtenstein, Professor of Financial Management (IESE), Julia Prats, Professor of Entrepreneurship (IESE) and Peter Zaboji, Professor of Entrepreneurship (INSEAD).

'It is an honor to work with the best MBA students from international accepted Business Schools. As the expansion of Brainloop is key in 2007, we are very happy to work with this elite student team at the realisation of our ambitious plans', says Oliver Gajek, CEO of Brainloop AG.

#### About Brainloop AG

Brainloop AG, headquartered in Munich, is the leading provider of infrastructure and solutions for managing confidential documents. Brainloop's customers reach important risk-management and compliance objectives by deploying Brainloop Secure Dataroom for Dataroom communications, financial reporting, strategic projects and any situation where confidential documents need to be made ubiquitously available to authorized users inside and outside the firewall while being protected from unauthorized access. The Brainloop Secure Boardroom is a variation of the Brainloop Secure Dataroom, especially customized to fit the needs of the directors and the supervisory board members.

Brainloop's customers include Deutsche Telekom, ThyssenKrupp, Galileo Industries, Premiere and Bankgesellschaft Berlin, as well as leading legal and financial services, who use Brainloop Secure Dataroom as an ASP service.
