

Austrian IT Service Provider adds Brainloop Dataroom Technology to its Portfolio

# Brainloop and mii Announce Strategic Partnership

## Focus on the secure exchange of confidential documents

**Munich / Vienna, March 21, 2007 – Brainloop AG, the leading provider of infrastructure and solutions for managing confidential documents and mii AG, a leading Austrian IT service provider for the development of innovative business infrastructure solutions, announced their strategic alliance today. This alliance allows mii to expand its business in the Large Enterprise market. With the Brainloop Dataroom products in its product line, mii can offer its clients leading-edge technology in the document collaboration and security area.**

mii, a long-time member of the Microsoft Partner Advisory Council, is a Top-500 Austrian company and is well-known as a leader in the areas of collaboration, communication, infrastructure and security.

“Our strategic partnership with mii offers significant benefits to both our companies,” says Oliver Gajek, CEO of Brainloop AG. “The experts at mii understand the growing demands of cross-company project management and the security requirements of the Austrian market. They serve this market professionally and effectively and now they can offer additional services to their customers by using our technology to build secure solutions.”

Brainloop Secure Dataroom protects executive board documents, financial reports, and strategic projects, enabling the secure access and exchange of documents among multiple organizations. Its end-to-end security architecture includes encryption for the storage and transmission of documents and strong user-authentication to protect the system from un-authorized access. In addition, the Dataroom keeps a secure log to record every access and every change to a document. A personalized watermark offers each document additional protection.

“The electronic safe from Brainloop significantly expands our IT security and document management solutions service. Our customers are very interested in the possibility of securely managing, editing, and distributing documents among multiple companies. This is especially interesting to our customers involved in mergers and acquisitions,” explains Bernd Schneider, Head of Business Development in mii AG.

### **About Brainloop AG**

Brainloop AG, headquartered in Munich, is the leading provider of infrastructure and solutions for managing confidential documents. Brainloop's customers achieve important risk-management and compliance objectives by deploying Brainloop Secure Dataroom for boardroom communications, financial reporting, strategic projects and all situations where confidential documents need to be available to authorized users inside and outside the firewall yet protected from unauthorized access. The Brainloop Secure Boardroom is a variation of the Brainloop Secure Dataroom. It is especially customized to fit the needs of Directors and Supervisory Board Members.

Brainloop's customers include Deutsche Telekom, ThyssenKrupp, Galileo Industries, Premiere and Bankgesellschaft Berlin, as well as leading legal and financial services firms. Partners include Microsoft and T-Systems International. Brainloop has offices in Boston, MA and Munich, Germany.
